

# DARE TO DIY DIFFERENTLY

**Liquid Rubber Multipurpose Cleaner** is a safe, ready to use product for cleaning and brightening grey weathered exterior wood. Can be used on decks, PVC siding, PVC furniture, and fences. This specialized cleaner is based on an organic, non-corrosive acid salt and other naturally occurring ingredients that have been formulated to replace corrosive and hazardous cleaning products.

**Liquid Rubber Multipurpose Cleaner** removes moss, dirt, and grey fibers from weathered wood.

## LIQUID RUBBER MULTIPURPOSE CLEANER PERFORMANCE FEATURES

- Safe & Effective
- Non-Corrosive
- Low Odor
- Restores Grey Weathered Wood
- Easy to Use
- No Specialized Equipment Needed

## APPLICATION EQUIPMENT

**Liquid Rubber Multipurpose Cleaner** is ready to use, do not dilute. Sweep the surface clean. Wet the surface lightly with garden hose. Apply product generously using a brush, roller, or garden sprayer suitable for bleach. Allow solution to stand for 5 minutes. Scrub the surface with stiff bristle brush. Scrub a small section first to determine if area is cleaned. Rinse the surface thoroughly using a pressure washer with light pressure or a high-pressure nozzle on a garden hose.

If mill glaze or residual grey wood is present, sanding may be required.

## DRYING TIME

Drying time will vary by environmental conditions and can be up to 48 hours. Be sure the surface is completely dry before application of primers and coatings.

---
