

DARE TO DIY DIFFERENTLY

Liquid Rubber RV Smart Cleaner is a safe, ready to use product for cleaning and conditioning your RV roof, prior to application of Liquid Rubber primers and sealants. Can be used on EPDM, Aluminum, Fiberglass or PVC. This specialized cleaner is based on an organic, non-corrosive acid salt and other naturally occurring ingredients that have been formulated to replace corrosive and hazardous cleaning products.

Liquid Rubber RV Smart Cleaner removes moss, dirt, and algae from your RV. Will not harm grass, plants, or shrubs.

LIQUID RUBBER RV SMART CLEANER PERFORMANCE FEATURES

- Safe & Effective
- Non-Corrosive
- Low Odor
- Cleans EPDM, Aluminum, Fiberglass & PVC
- Easy To Use
- No Specialized Equipment Needed

APPLICATION EQUIPMENT

Liquid Rubber RV Smart Cleaner is ready to use, do not dilute. Sweep the surface clean. Wet the surface lightly with garden hose. Apply product generously using a brush, roller, or garden sprayer suitable for bleach. Allow solution to stand for 5 minutes. Scrub the surface with stiff bristle brush. Scrub a small section first to determine if area is cleaned. Rinse the surface thoroughly using a pressure washer with light pressure or a high-pressure nozzle on a garden hose.

DRYING TIME

Drying time will vary with environmental conditions and is generally between 4-6 hrs. Be sure the surface is completely dry before application of primers and coatings.

SUITABLE APPLICATIONS INCLUDE BUT ARE NOT LIMITED TO

- EPDM RV Roofs
 - Fiberglass
 - Siding
 - Aluminum
 - PVC
 - Vinyl
-
